PROFESSIONAL EXPERIENCE

AI Strategy Consultant (Product Management) | **Asa LifeCare** | Durham, NC, USA

Feb 2025 – April 2024

- Developed and delivered a strategic AI/ML recommendation pitch to Asa Lifecare's leadership, aligning use cases with business goals in caregiver and patient management identifying gaps in businesses.
- Conducted competitive and market landscape analysis to identify AI adoption trends in digital health, guiding feature prioritization for Asa's internal platform.
- Applied product frameworks to design a roadmap for scalable AI integration across patient triage, task automation, and outcome prediction.

Connected-To-Culture | Lead Product Manager | Washington, District of Columbia, USA

May 2024 - Aug 2024

- Rolled-out a 0-to-1 travel AI powered mobile-app in 3 months to alpha users by leading a team of 7 data scientists, designers to deliver personalized African travel itineraries and achieve a 40% improvement in operational efficiency and delivery timelines through Agile methodologies.
- Participated in end-to-end product development of AI-driven tools from ideation and validation to deployment, with a focus on improving student retention.
- Collaborated cross-functionally with Data Scientists, Engineers, and Product Managers to gather product requirements, test AI features, and refine prototypes based on stakeholder needs and data quality for feature performance.
- Engaged in iterative product development by supporting user feedback sessions and contributing to feature enhancements based on qualitative insights.
- Documented key project milestones, learnings, and technical approaches to ensure knowledge continuity and future iteration support.

Co-Founder & Product Manager | Neutrify | Remote

Sep 2022 - Mar 2024

- Launched a B2C pilot web-plugin from ideation to MVP, leading a 7-member team to educate users on the carbon footprint of food purchases while providing sustainable diet alternatives (web user experience) to reduce carbon emissions and food waste.
- Conducted UAT, created user stories, technical documentation by cross-collaborating with designers, and software engineers.
- Earned 4 hackathon wins, earning over \$4,500 with recognition at 6+ global accelerators (SXSW, Climate Change Fund).

Product Manager | The-Pathway-Initiative | Boston, Massachusetts, USA

Jul 2021 - Feb 2022

- Executed the development of a 0-to-1 mentorship React mobile-app with a 15-member team, conducting 20+ interviews and designing features for MVP to support 150+ underprivileged students academic and career growth.
- Collaborated with cross-functional teams to develop AI-driven features that personalize learning experiences and support student retention, aligning with educational goals and user needs.
- Contributed to machine learning prototypes that adapt content based on student behavior and performance, enhancing engagement and academic outcomes in EdTech platforms.

Associate Product Manager | Airtel Digital Limited | Gurugram, IN

Apr 2022 - Jul 2022

- Led Go-To-Market strategy to drive 25% adoption growth for a feasibility tool used in Airtel Enterprise Solutions portfolio within 10 weeks, serving 1M+ customers through user interviews, restructuring product operations, and establishing SOPs.
- Develop KPI dashboard with status tracking and drove the feature implementation from concept to implementation to A/B testing and process improvement end-to-end.
